

Social Prescribing in London

Useful Resources

Welcome

Since April 2020, the London Social Prescribing Network has championed social prescribing activities and services in our capital and the role that the voluntary sector plays in this.

Now the funding for this project has come to an end, so we have created this booklet to support you moving forwards.

As part of our ongoing commitment to reducing health inequalities, London Plus will continue to host social prescribing resources on our website, which you can access at any time.

We are incredibly proud of all we have achieved together and how collectively; we have strengthened the role of the Voluntary, Community and Social Enterprise Sector in London who are tackling health inequalities and preventative work.

Thank you for being part of this incredible work. It wouldn't have been possible without you.
